

# RREI Announces Sale of Commercial Buildings in St. Paul

Results Real Estate Incorporated (RREI), a commercial real estate company that specializes in finding creative property solutions, announces the sale of two commercial properties. The properties, located in St. Paul Minnesota, were used for office; light manufacturing and storage. One was 22,000 SF and the other was 39,500 SF, the respective closing dates were June 29th and June 30th. The properties were purchased by a local investment company.

The properties were listed 4 years ago, but it wasn't until RREI got involved last September when prospective buyers were found and negotiations were initiated. Results Real Estate Incorporated has a multiple phase proprietary system developed over several years that ensures that every detail, every potential problem and every need that the client has is addressed and planned for.

The client was very pleased with the negotiated price and the speed of the sale. "I and my siblings had 2 commercial properties to sell in St. Paul. We had started this process over 4 years ago. We hired Arnie Seltzer as our Commercial Real Estate Agent in late September 2020. He performed a small miracle and got the job done in less than a year! Arnie is a mover and a shaker. We are very pleased with the price achieved and the fact that both properties closed within 24 hours of each other. Arnie demonstrated great diligence by making sure all the i's were dotted and t's crossed in all documents. We appreciate his tenacity, high energy and willingness to look out for our best", said Carol A Lugg, property owner.

# RREI Acquires Office Building on Behalf of Client

Results Real Estate Incorporated (RREI) found an ideal office location for a Minneapolis Business and negotiated the price and terms of purchase on their behalf. The location is in an upscale section of Minneapolis and absolutely ideal for the clients business needs.

The business that RREI represented was a previous client. The client thought so highly of Results Real Estate that they contacted them after working with them nearly 20 years ago.

After working with the client to understand its business needs and objectives, Arnie Seltzer (President of RREI) and Anna (V. P. of RREI) went to work, gathering potential properties from a myriad of data bases that were available. After several weeks of research, a property was found that met all parameters established while using RREI's unique [Corporate Property Acquisition Process](#).

As part of the acquisition process, a fair and competitive price was determined based on a thorough market analysis. This

price used as a benchmark when negotiating with the seller. After several rounds of negotiations, a price was agreed on that was nearly \$35,000 less than the asking price.

Once the transaction was completed, RREI continued to support its client by providing names of reliable and competitive resources needed for remodeling and relocation. In addition, Arnie has followed up with his client on several occasions to ensure that the client was fully satisfied.
