Results Real Estate Incorporated will help you get the best value possible for your commercial property. Our expert research and analysis will provide you with the most up-to-date information that establishes the best usage and position of each particular piece of real estate in today's marketplace. We will employ a team of experts that will take a step by step process:

- **Property Analysis:** We will thoroughly research and analyze the property to get the best information possible.
- **Market Evaluation:** We will review your property value with respect to replacement cost, comparative sales analysis and investment potential.
- **Marketing Plan:** We will develop a custom plan for your situation. We will give your property maximum exposure to all potential users who that would see the greatest value in your property.

- **Direct Marketing:** We will tenaciously market your property using a variety of methods, including direct mail, personal canvassing, presentation materials and signage. Our direct marketing can be local, regional and national.
